## Appreciation letter for opensource contribution

**Dear Rajdeep,**

Thank you so much for participating in opensource as well as contributing to the project repositories of eduAlgo. Your work and efforts are appreciated and we are glad that we have got a contributor like you, who has contributed some awesome features to our software.

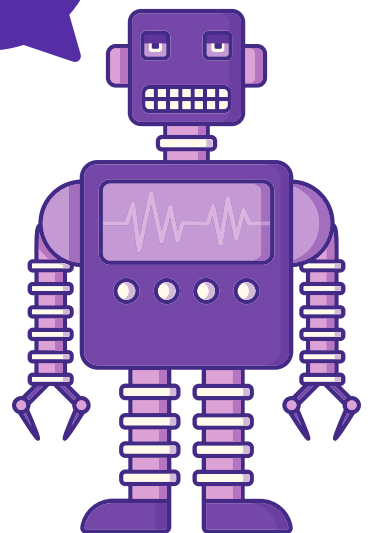

This appreciation letter serves as a certificate as well. We at eduAlgo are obliged for the important time that you have spent in going through our codebase, understanding it, preparing the proposal and contributing some additional lines of code.

We wish you all the best for the future.

Thank you  
Regards,

**Abhijit Tripathy,**  
**Founder & Director**
